PROFESSIONAL SUMMARY

MBA graduate in Business Analytics (MIT World Peace University, Pune) with hands-on experience as a Business Analyst Intern, specializing in requirement gathering, KPI reporting, dashboard development, and data-driven business insights. Proficient in Excel, SQL, Power BI, Tableau, and Python with a track record of building interactive dashboards, performing EDA, and translating complex datasets into actionable recommendations for operational decision-making. Experienced in collaborating with cross-functional stakeholders, documenting business requirements, and delivering structured analytical reports. Seeking a Business Analyst or Data Analyst role to apply analytical and reporting skills in a growth-oriented environment.

SKILLS

Technical tools: Excel (Advanced), SQL, Python (Pandas), Power BI, Tableau, Power Query, DAX

Analytics & reporting: Data Cleaning, ETL, EDA, KPI Reporting, Dashboard Development, Data Validation, Trend Analysis, Data Storytelling

Business analysis: Requirement Gathering, Business Process Analysis, Gap Analysis, User Stories, Stakeholder Communication, Process Improvement

Methodologies: Agile/Scrum (basic), SDLC (awareness), Cross-functional Collaboration

Soft skills: Communication, Problem-solving, Attention to Detail, Time Management, Collaboration

WORK EXPERIENCE

Business Analyst Intern | AI Variant

Jul 2025 – Present • Pune, Maharashtra

- Gathered business requirements from cross-functional stakeholders, translated them into analytical deliverables, and presented data-driven insights during weekly sprint review meetings.
- Designed and published interactive Power BI and Tableau dashboards tracking 8+ KPIs (order volume, delivery SLA, stock levels) used by management for weekly performance reviews and operational decisions.
- Executed ETL pipeline in Power Query to clean and transform supply chain datasets, resolving missing values, duplicates, and type errors, improving data accuracy for downstream KPI reporting.
- Conducted EDA on supply chain and operations datasets using Python (Pandas) to surface demand trends, late delivery patterns, and inventory gaps, feeding directly into management reporting.
- Created basic DAX measures and data models in Power BI to support structured, drillable reporting and trend analysis for business stakeholders.
- Performed gap analysis on operational workflows, identified inefficiencies, and documented findings as structured business recommendations for process improvement.

Diligence Analyst Intern | Vcheck Global

Mar 2025 – Jun 2025 • Pune, Maharashtra

- Prepared structured due diligence reports by cross-verifying financial records, corporate filings, and regulatory disclosures across multiple U.S. government databases, ensuring accuracy prior to client delivery.
- Conducted research on litigation, compliance risks, and background verification data, supporting timely and accurate investigation outcomes for clients.
- Collaborated with team members to maintain consistent data quality standards and meet delivery deadlines across concurrent investigation assignments.

Education Counsellor | UpGrad

Jul 2024 – Sep 2024 • Pune, Maharashtra

- Evaluated prospective student requirements and provided tailored program guidance, contributing to student conversion and satisfaction metrics.
- Collaborated with cross-functional teams to analyze workflow gaps and recommend process improvements for counselling operations.

Sales Executive | IFAS Pvt Ltd

Jun 2022 – Aug 2023 • Pune, Maharashtra

- Assisted in tracking sales performance and preparing structured activity reports using Excel for team and management review.
- Consistently achieved and exceeded assigned sales targets; strengthened communication and negotiation skills through direct client interactions.

PROJECTS

Supply Chain Delivery Performance Analysis & Business Insights - Python

- Uncovered \$2.1M in profit risk by evaluating the financial impact of late deliveries across regions, shipping methods, and operational categories using Python (Pandas).
- Performed data cleaning, preprocessing, and EDA to assess delivery efficiency, customer fulfillment metrics, and operational performance across large-scale supply chain transactions.
- Developed KPI-based analysis for delivery SLA compliance, shipping performance, and profitability; identified root causes of delays through segmentation analysis.
- Generated structured business recommendations to improve delivery timelines, reduce operational inefficiencies, and enhance customer experience, presented as an executive summary.

Supply Chain Management Analytics Dashboard - Power BI

- Built an end-to-end Power BI dashboard with ETL (Power Query), data modelling, DAX measures, and drill-down features to track KPIs including order volume, delivery performance, and inventory levels.
- Performed data cleaning and validation to ensure reporting accuracy; implemented filters and slicers to support ad hoc analysis by business users.
- Generated insights on demand patterns and operational inefficiencies to support data-driven decision-making for supply chain stakeholders.

Zomato Restaurant Analytics Dashboard - Tableau & Power BI

- Analyzed restaurant dataset to identify customer preference trends, cuisine patterns, and pricing insights across locations using Excel and Tableau.
- Built comparative dashboards in Tableau and Power BI with location-wise analysis and restaurant performance metrics; focused on data storytelling using bar charts, maps, and trend visuals.

EDUCATION

MBA (Business Analytics)

Aug 2023 – Aug 2025 • Pune, Maharashtra

MIT World Peace University

Bachelor of Commerce (B.Com)

Nov 2017 – Nov 2020 • Nagpur, Maharashtra

Dr. Punjab Rao Deshmukh College of Commerce

Higher Secondary Certificate (HSC)

June 2015 – Mar 2017 • Gondia, Maharashtra

Saket Public Junior College of Science

Central Board of Secondary Education (CBSE)

June 2014 – Mar 2015 • Gondia, Maharashtra

Saket Public School

CERTIFICATIONS
